WHAT WE DO

Details of our ongoing projects are as under:-

Vocational Training Center for Women

At its Vocational Training Centers, NICE imparts, Free of Charge, vocational training in Domestic Tailoring, Dress Making and Fashion Designing to women belonging to low-income class so that they are able to earn their livelihood with dignity by doing work at their homes. This has added much to the financial health of that family and has improved their standard of living considerably. This would further add to the prosperity of the society and the motherland. From the experience of conducting 6 Batches of Vocational Training uptill December, 2019, it is quite evident that this vocational training has enhanced the working skills of the women and their productivity as well. Through these Six (6) Batches, 215 females were trained and more than 100 sewing machines were given to them to earn their livelihood by doing work at their homes, independently and honourably. 7th Batch of vocational training took off on 01.01.2020.

Beauty Training Center for Women

In order to cater an ever increasing demand of women to imparting necessary training in beauty skills so that by using these skills, women may earn their livelihood to bring up their families, NICE Beauty Training Center was established during the year 2020. Three month's course in Self-Grooming / Beautician Course is conducted at this Center, Free of Charge. This Beauty Training Center would cater the training needs of common women and working women of the area who intend to get training in such vocational skills which suit their living and working as well.

It is expected that with the establishment of this Beauty Training Center:-

- i) A significant number of women would **gain valuable skills** and would be able to engage in **gainful employment** and become **self-reliant**.
- ii) This would certainly **empower women** earn their living respectably.
- iii) This would certainly result into **poverty alleviation** and enhance living standards of women.

It can be said that the above-mentioned outcomes would obviously contribute in the overall progress of our society.

Monthly Ration Scheme:

Having worked on ration package during Covid-19 Lockdown, need was felt to continue working on this concept so that less privileged class is benefited out of our welfare schemes. In this first phase, 50 families were selected to provide monthly ration on marginalized rate (50% subsidy from NICE).

Medical Services:

Through our newly established Medical Center, basic health services would be provided to the needy persons, Free of Charge. Besides, due support would be extended in providing insulin to the diabetes, free of charge, on monthly basis.

Computer Training:

Our Computer Literacy Programme continues successfully at Gulshan Model High School, Shahdara where computer training is being imparted to the students as per their educational and future requirements. For this purpose, a Computer Lab was established with the generous support of **National Bank of Pakistan**. We acknowledge, most sincerely, this generous gift by the **NBP** for the young learners.

Assistance:

Considering the hard realities of socio economic problems being faced by the common men of the society, NICE extends financial assistance and logistic support to the needy people, presently on small scale, out of its meager resources to fulfil their acute needs like basic living requirements, education of children and healthcare and / or to start their earning. It is intended that with the regular support of our sponsors, we would be able to launch micro financing services for poverty eradication. Let's join hands in this regard for a prosperous Pakistan.
